

University of South Alabama Office of Sponsored Projects Basic Budget Terminology

Allowable Direct Costs are determined by U. S. Office of Management and Budget (OMB) 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for federal awards.

Per 2 CFR 200, the tests of allowability of a cost are:

- { Costs must be reasonable,
- { Costs must be allocable to sponsored agreements under the principles and methods provided herein,
- { Costs must be given consistent treatment through application of those generally accepted accounting principles appropriate to the circumstances, and
- { Costs must conform to any limitations or exclusions set forth in these principles or in the sponsored agreement as to types or amounts of cost items.

Authorized Organization Representative (AOR)

The administrative official legally authorized to commit the institution to a project if an external agency agrees to support it. The AOR signature is typically the last administrative signature obtained.

Budget

An estimate of the expenditures expected to be incurred in the performance of a proposed statement of work. The budget represents all costs associated with the implementation of a grant project or contracted agreement.

Budget Justification

A narrative, usually two to three pages, explaining the calculations used to determine the total cost for each budget category. It MUST match both the budget and the proposal narrative.

Budget Period/Project Period

Interval into which a grant project period is divided for funding and reporting purposes, usually 12 months.

Direct Costs

Direct costs charged to the sponsored project must be allowable, allocable and reasonable. Direct costs can be identified specifically with the activities and services of a specific sponsored project with a high degree of accuracy. Direct costs do not include overhead or other indirect costs.

Examples of direct costs include:

Modified Total Direct Cost (MTDC, MTCS Base or Base)

MTDC is the Total Directs Costs (TDC) consisting of all direct salaries and wages, applicable fringe benefits, materials, supplies, services, travel and up to the first \$25,000 of each subaward (regardless of the period of performance of the subawards under the award). Modified total direct costs shall exclude equipment, capital expenditures, charges for patient tuition remission, rental costs, scholarships and fellowships, participant support costs and the portion of each subaward in excess of \$25,000. Other items may only be excluded when necessary to avoid a serious inequity in the distribution of indirect costs with the approval of the cognizant agency for indirect costs.
